Planned a holiday to Dubai for today's 5 nights with my family. From the start, Preeti helped me plan a super trip, also did a great job from the start of planning to the point of execution. She was pretty flexible in changing the itinerary and the hotels as per our demands. Our package included private transfers, airport stay hotel, park entry and one night stay at hotel. After the trip, everything was on time and perfectly planned. **Value for money!**

The Jvari church was built on the very margin of a cliff, with its western facade nearly hanging over a precipice, where it was strengthened by a controforse wall. The temple looks like growing from the mountain, which was obviously the architect's plan. Jvari is one of the best examples of harmonic relation of architecture with nature. The king of Georgia at that time was Giorgi I . The original church was built in 4th century AD during the reign of Mirian III of Kartli (Iberia). Saint Nino, who converted Georgia into Christianity, is said to have chosen the confluence of the Mtkvari and Aragvi rivers as the place of the first Georgian church. A notable reconstruction was carried out at the end of 14th century after it was destroyed by Tamerlan. The next large renovation came in the beginning of 15th, when the current dome was built, being subsequently renovated again in the middle of 17th century. The cathedral is surrounded by a defensive wall, built of stone and brick during the reign of King Erekle II (Heraclius) in 1787.
